### **DETAILED ACTION**

1. Claims 18-53 have been canceled. Claim 85 is new. Claims 1-17 and 54-84 are allowed over the prior art of record.

#### ***Allowable Subject Matter***

2. The following is an Examiner's statement of reasons for allowance: After further consideration of the prior art of record, the Examiner has concluded that the prior art of record fails to teach and/or suggest each and every limitation of independent claims 1, 54, 61, 66, and 67

Specifically, the prior art fails to teach and/or suggest "...a provisioning system operable to electronically receive the single, hierarchical provisioning request message from the external system and transmit information in the hierarchical provisioning request message to each of the plurality of service providers identified in the hierarchical provisioning request to trigger the provisioning events, wherein the provisioning system is separate from the external system and the plurality of service providers; the hierarchical provisioning request message being a format-independent electronic message capable of being constructed by and interpreted by a plurality of different external systems, the hierarchical provisioning request message having a data structure that includes information identifying the entity to which the plurality of provisioning events pertain, wherein the identifying information includes one or more attributes defined by the external system, wherein the hierarchical provisioning request message further includes a provisioning event data structure associated with each of the plurality of provisioning events

Art Unit: 2158

requested for the entity, wherein the provisioning event data structure identifies a service provider associated with a provisioning event requested for the entity..."

The preceding limitations, or minor variations of the preceding limitations, occur in each of the independent claims. When the preceding limitations are combined with the rest of the claim limitations recited independent claims 1, 54, 61, 66, and 67, the result is a combination of elements that is both novel and non-obvious over the prior art of record.

3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
